Lab-testing coordination for spice exporters (service)

A service idea: arranging accredited lab tests and report packs for small spice exporters. Market data shown is for turmeric, the main spice affected.

Why now: from 23 Oct 2026, tests for arsenic, lead, cadmium and mercury that support the release of food detained under US FDA Import Alert 99-42 must be done by a LAAF-accredited lab. Source: https://www.accessdata.fda.gov/cms_ia/importalert_1167.html, checked 17 Oct 2026.

Top 5 markets for India, ranked by our score, from 17 markets above US$5M among the 49 countries NitiMarg tracks. The order combines market size and growth, India's share and its trend, and our Relationship & Risk score. It is not a ranking by import value.

Market	Imports 2024 (US$)	Change since 2019	India's share 2024	Relationship & Risk
1. Malaysia Focus market	$19.9M	+81%	90.4%	89/100
2. Bangladesh Estimate from partner-country exports (mirror data), 2024	$52.2M	+261%	95.8%	68/100
3. France Focus market	$10.5M	+68%	52.4%	78/100
4. Indonesia	$6.9M	+288%	98.4%	86/100
5. Spain	$9.2M	+137%	58.7%	78/100

USA: rank 13 of 17; imports $56.2M in 2024; India's share 66.8%; Relationship & Risk 51/100.

Focus markets in the full report: Malaysia, France, Saudi Arabia.

The full report covers:

- Top 10 markets for India across 49 countries, with growth, quantity, India's share and unit price
- Main competing supplier countries in each market
- Relationship & Risk score of each market, with the reason
- Named importers in the focus markets, each with a public source (business contacts only where the company publishes them)
- How deals work in this trade: samples, payment terms, Incoterms, lead times
- Unit economics with every input marked sourced or estimate
- Compliance checks, risks and stop rules
- An 8 to 12 week step-by-step plan for one person

Tariff on India in each market: coming soon. We are re-checking every rate against each country's official tariff schedule before we publish it.
